# High Prior Attainment (HPA) Student Provision

## What is an HPA Student?

HPA students are defined as those who start secondary school in Year 7 having attained a 'well above average score' in their KS2 tests.

These students will be expected to achieve aspirational GCSE targets of grade 7-9.

Bishop David Brown

In order to support all students to target grades, staff will aim to:

- Promote an ethos of high expectation and aspiration.
- Stretch and challenge as part of differentiated practice.
- Set appropriately challenging study opportunities for completion and extension.
- Establish specific classroom support for underachieving HPA students.
- Ensure that data drops are possible, so that analysis of attainment is reliable and so that interventions have impact.
- Attend relevant CPD where possible to help develop and implement effective strategies.

# Bishop David Brown
